One Blood is asking for individuals who have recovered from COVID-19 to donate plasma. For more information, [click here](#).

GOVERNOR DESANTIS' EXECUTIVE ORDERS

For resource requests in your county please contact your local emergency management office.

Big Bend Health Care Coalition COVID-19 SITUATION REPORT #18

MAY 28, 2020

Statewide Conference Call Notes:

- Facilities across the state will be opening in the future for the placement of COVID positive patients that do not need hospitalization but are unable to stay in the LTC facility where they create a risk to other patients.
- Testing for staff and residents will be increasing as we move forward, and it is expected that we will see an increase in positive results due to this factor.
- LTC facilities are still not allowed to have visitation, but hospitals can now determine their own visitation policies. The Governor is monitoring trends to see if changes to this rule are possible as he is well aware of the challenges isolation can have.
- Hospitals determine the visitation policies but at this time long-term care facilities are not allowed to have visitation. The Governor is well aware of the challenges that this isolation has on the residents and staff. Trends are constantly being monitored to see if changes to this rule are possible.
- Facilities are expected to follow the CDC requirements for PPE use in the care setting.
- The state currently still has Remdesivir on hand. This resource requires cold chain transportation and if your facility is interesting in obtaining Remdesivir, contact the Department of Health.
- The Department of Children and Families is setting up triage teams to review and evaluate the waitlist for behavioral health placement at the state level and those evaluations will begin soon.

If you are a healthcare provider and have any questions, you should visit provider.covid19@health.gov

ESS INFORMATION FOR REPORTING FACILITIES

- ESS is critically important for the State to anticipate demand in the hospital & sub-acute care setting. This data influences decisions on the need for additional support and equipment requests from federal government.
- Facilities MUST verify and update data once daily.
- ESS is adding more fields daily. Instructions on these new fields available on the AHCA ESS website.
- Hospitals should estimate the number of med surge beds that can be converted to ICU beds. Do not duplicate bed numbers in different categories. Start with highest acuity beds.
- Corporate Representatives can be established to monitor data entry at individual facilities. Contact AHCA for assistance

SURGEON GENERAL'S PRIORITIES

Florida's 5 STEPS to Prevent COVID-19

1 STOP INTRODUCTION

Stop Introduction into Florida from out of state.

2 TEST, TEST, TEST

Leverage testing capabilities & work to expand capacity.

3 ELDERLY & VULNERABLE PROTECTION

Protect the elderly by increased mitigation and messaging at assisted living centers, nursing homes, and other special facilities.

4 PREPARE HOSPITALS

Assess the potential impacts and course of action for hospitals and bed capacity.

5 SOCIAL DISTANCING

Continue to message social distancing.
